I am Ashish Kulkarni, and I love IKEA!

I wrote a paper on some research I did in the past [1].

I hope to join the Department of Assembly as a graduate student in order to make contributions in areas of my interest, under Dr. Swedish Meatball. My career goals align with Dr. Meatball's work at MeatLab.

I wish to start my own business in manufacturing and assembly. I already have prior experience in the field, during my time at Home Depot Institute[1].

I hope to make immense contributions as a Blåhaj!
